DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Katz on 26 April 2005.

The application has been amended as follows:

In the claims

Cancel claims 97-120, 123-157.

Allowable Subject Matter

Claims 1-96, 121 and 122 are allowed.

The following is an examiner's statement of reasons for allowance for independent claims 1, 121 and 122.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance for independent claims 1-96, 121 and 122.

Applicant's arguments, see amendment filed 20 February 2004 with respect to the Shell reference have been fully considered and are persuasive. Shell, the best art of record which at first appeared to be applicable, was disqualified and cannot be applied in the rejection.

Applicant's remarks in his amendment of 20 February 2004 are compelling and commensurate with both the original disclosure and the claims as amended.

The prior art of record neither anticipates nor fairly and reasonably teaches method that includes, *inter alia*, the steps of

providing a plurality of web files operatively coupled to a web site associated with the marketing system; and
allowing access to a plurality of marketing system products or services to the registered Client, Member, or IBO via at least one of the plurality of web files.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statements for Reasons for Allowance."
